LIST OF CONTENTS

VOLUME 47

NUMBER 1

Qi-Li Feng, Kenneth G. Davey, Anthony S.D. Pang, Tim R. Ladd, Arthur Retnakaran, Bill L. Tomkins, Sichun Zheng, Subba R. Palli	1	Developmental expression and stress induction of glutathione *S*-transferase in the spruce budworm, *Choristoneura fumiferana*
S.A.L. Hayward, J.S. Bale, M.R. Worland, P. Convey	11	Influence of temperature on the hygropreference of the Collembolan, *Cryptopygus antarcticus*, and the mite, *Alaskozetes antarcticus* from the maritime Antarctic
M.S. Mayer	19	Nomographic correspondence between specialist cell responses, electroantennograms and the probability of behavioral response: the importance of comparable stimuli and a benchmark
Masashi Hotta, Takashi Okuda, Toshiharu Tanaka	31	*Cotesia kariyai* teratocytes: growth and development
Georg F. Rast, Peter Bräunig	43	Feeding-related motor patterns of the locust suboesophageal ganglion induced by pilocarpine and IBMX
P. Kalushkov, M. Hodková, O. Nedvêd, I. Hodek	55	Effect of thermoperiod on diapause intensity in *Pyrrhocoris apterus* (Heteroptera Pyrrhocoridae)
E.A. Bernays, K.L. Bright	63	Food choice causes interrupted feeding in the generalist grasshopper *Schistocerca americana*: further evidence for inefficient decision-making
Petra von Dungern, Hans Briegel	73	Enzymatic analysis of uricotelic protein catabolism in the mosquito *Aedes aegypti*
Seiji Tanaka	83	Effects of suppressed oviposition activity and flight muscle histolysis on food consumption and ovarian development in a wing-dimorphic cricket: an explanation for sporadic conclusions related to physiological trade-offs
C. Jaco Klok, Steven L. Chown	95	Critical thermal limits, temperature tolerance and water balance of a sub-Antarctic kelp fly, *Paractora dreuxi* (Diptera: Helcomyzidae)
	111	Contents of *Insect Biochemistry and Molecular Biology*
	113	Diary

NUMBER 2

C.G. Galizia, R. Menzel	115	The role of glomeruli in the neural representation of odours: results from optical recording studies
P. von Dungern, H. Briegel	131	Protein catabolism in mosquitoes: ureotely and uricotely in larval and imaginal *Aedes aegypti*
P.T. Cristofoletti, A.F. Ribeiro, Walter R. Terra	143	Apocrine secretion of amylase and exocytosis of trypsin along the midgut of *Tenebrio molitor* larvae
M. Goto, Y. Sekine, H. Outa, M. Hujikura, K. Suzuki	157	Relationships between cold hardiness and diapause, and between glycerol and free amino acid contents in overwintering larvae of the oriental corn borer, *Ostrinia furnacalis*
J. Russo, M. Brehélin, Y. Carton	167	Haemocyte changes in resistant and susceptible strains of *D. melanogaster* caused by virulent and avirulent strains of the parasitic wasp *Leptopilina boulardi*
D.R. Gray, F.W. Ravlin, J.A. Braine	173	Diapause in the gypsy moth: a model of inhibition and development
B. Laenen, N. De Decker, P. Steels, E. Van Kerkhove, S. Nicolson	185	An antidiuretic factor in the forest ant: purification and physiological effects on the Malpighian tubules
T. Amakawa	195	Effects of age and blood sugar levels on the proboscis extension of the blow fly *Phormia regina*
H. Saito	205	Blue biliprotein as an effective factor for cryptic colouration in *Rhodinia fugax* larvae

I Contents of *Insect Biochemistry and Molecular Biology*
III Diary

NUMBER 3

T.G. Shelton, A.G. Appel 213 Carbon dioxide release in *Coptotermes formosanus* Shiraki and *Reticulitermes flavipes* (Kollar): effects of caste, mass, and movement

P.E.M. Ribolla, A.T. Bijovsky, A.G. de Bianchi 225 Procathepsin and acid phosphatase are stored in *Musca domestica* yolk spheres

M.-P. Tu, R. Kou, Z.-S. Wang, J.G. Stoffolano Jr., C.-M. Yin 233 Immunolocalization and possible effect of a moth allatotropin-like substance in a fly, *Phormia regina* (Diptera: Calliphoridae)

M. Friedländer, A. Jeshtadi, S.E. Reynolds 245 The structural mechanism of trypsin-induced intrinsic motility in *Manduca sexta* spermatozoa in vitro

B.I.P. Barratt, M. Sutherland 257 Development of teratocytes associated with *Microctonus aethiopoides* Loan (Hymenoptera: Braconidae) in natural and novel host species

M.-J. Yu, K.W. Beyenbach 263 Leucokinin and the modulation of the shunt pathway in Malpighian tubules

A. Donini, H.-J. Agricola, A.B. Lange 277 Crustacean cardioactive peptide is a modulator of oviduct contractions in *Locusta migratoria*

R. Predel, R.J. Nachman 287 Efficacy of native FXPRLamides (pyrokinins) and synthetic analogs on visceral muscles of the American cockroach

M.P. Scott, S.T. Trumbo, P.A. Neese, W.D. Bailey, R.M. Roe 295 Changes in biosynthesis and degradation of juvenile hormone during breeding by burying beetles: a reproductive or social role?

W. Takken, J.J.A. van Loon, W. Adam 303 Inhibition of host-seeking response and olfactory responsiveness in *Anopheles gambiae* following blood feeding

I Contents of *Insect Biochemistry and Molecular Biology*
III Diary

NUMBER 4–5

R. Predel, R.J. Nachman, G Gáde 311 Myostimulatory neuropeptides in cockroaches: structures, distribution, pharmacological activities, and mimetic analogs

M. Yamashita, K. Iwabuchi 325 *Bombyx mori* prohemocyte division and differentiation in individual microcultures

K. Richter 333 Daily changes in neuroendocrine control of moulting hormone secretion in the prothoracic gland of the cockroach *Periplaneta americana* (L.)

Y. Outreman, A. Le Ralec, M. Plantegenest, B. Chaubet, J.S. Pierre 339 Superparasitism limitation in an aphid parasitoid: cornicle secretion avoidance and host discrimination ability

R.V. Barbehenn, S.L. Bumgarner, E.F. Roosen, M.M. Martin 349 Antioxidant defenses in caterpillars: role of the ascorbate-recycling system in the midgut lumen

R. Hopkin, J.H. Anstee, K. Bowler 359 An investigation into the effects of inhibitors of fluid production by *Locusta* Malpighian tubule Type I cells on their secretion and elemental composition

B. Hölldobler, E.D. Morgan, N.J. Oldham, J. Liebig 369 Recruitment pheromone in the harvester ant genus *Pogonomyrmex*

K.C. Daly, M.L. Durtschi, B.H. Smith 375 Olfactory-based discrimination learning in the moth, *Manduca sexta*

A. Stabentheiner 385 Thermoregulation of dancing bees: thoracic temperature of pollen and nectar foragers in relation to profitability of foraging and colony need

S.R. Misener, C.-P. Chen, V.K. Walker 393 Cold tolerance and proline metabolic gene expression in *Drosophila melanogaster*

S. Zhou, R.S. Criddle, E.J. Mitcham	401	Metabolic response of *Platynota stultana* pupae during and after extended exposure to elevated CO_2 and reduced O_2 atmospheres
J.P. Ianowski, M.J. O'Donnell	411	Transepithelial potential in Malpighian tubules of *Rhodnius prolixus*: lumen-negative voltages and the triphasic response to serotonin
D.L. Hendrix, M.E. Salvucci	423	Isobemisiose: an unusual trisaccharide abundant in the silverleaf whitefly, *Bemisia argentifolii*
S.P. Foster	433	Fatty acyl pheromone analogue-containing lipids and their roles in sex pheromone biosynthesis in the lightbrown apple moth, *Epipyhas postvittana* (Walker)
A. Peppuy, A. Robert, E. Semon, C. Ginies, M. Lettere, O. Bonnard, C. Bordereau	445	(*Z*)-dodec-3-en-1-ol, a novel termite trail pheromone identified after solid phase microextraction from *Macrotermes annandalei*
J. Meijerink, M.A.H. Braks, J.J.A. Van Loon	455	Olfactory receptors on the antennae of the malaria mosquito *Anopheles gambiae* are sensitive to ammonia and other sweat-borne components
I. Lang, B. Walz	465	Dopamine-induced epithelial K^+ and Na^+ movements in the salivary ducts of *Periplaneta americana*
R.L.L. Kellner	475	Suppression of pederin biosynthesis through antibiotic elimination of endosymbionts in *Paederus sabaeus*
V. Cuvillier-Hot, M. Cobb, C. Malosse, C. Peeters	485	Sex, age and ovarian activity affect cuticular hydrocarbons in *Diacamma ceylonense*, a queenless ant
M. Locke	495	The Wigglesworth Lecture: Insects for studying fundamental problems in biology
L. Burguiere, F. Marion-Poll, A. Cork	509	Electrophysiological responses of female *Helicoverpa armigera* (Hübner) (Lepidoptera; Noctuidae) to synthetic host odours
F.G. Noriega, K.A. Edgar, W.G. Goodman, D.K. Shah, M.A. Wells	515	Neuroendocrine factors affecting the steady-state levels of early trypsin mRNA in *Aedes aegypti*
D.W. Bowles, C.M. Gillen	523	Characterization of Rb uptake into Sf9 cells using cation chromatography: evidence for a K–Cl cotransporter
	I	Contents of *Insect Biochemistry and Molecular Biology*
	III	Diary

NUMBER 6

W.W. Hoback, D.W. Stanley	533	Insects in hypoxia
D.K. Lewis, J.Q. Campbell, S.M. Sowa, M.-E. Chen, S.B. Vinson, L.L. Keeley	543	Characterization of vitellogenin in the red imported fire ant, *Solenopsis invicta* (Hymenoptera: Apocrita: Formicidae)
A. Couty, G. de la Viña, S.J. Clark, L. Kaiser, M.-H. Pham-Delegue, G.M. Poppy	553	Direct and indirect sublethal effects of *Galanthus nivalis* agglutinin (GNA) on the development of a potato-aphid parasitoid, *Aphelinus abdominalis* (Hymenoptera: Aphelinidae)
M.W. Lorenz, R. Kellner, W. Völkl, K.H. Hoffmann, J. Woodring	563	A comparative study on hypertrehalosaemic hormones in the Hymenoptera: sequence determination, physiological actions and biological significance
Y. Nakamatsu, Y. Gyotoku, T. Tanaka	573	The endoparasitoid *Cotesia kariyai* (Ck) regulates the growth and metabolic efficiency of *Pseudaletia separata* larvae by venom and Ck polydnavirus
E. Kristiansen, K.E. Zachariassen	585	Effect of freezing on the transmembrane distribution of ions in freeze-tolerant larvae of the wood fly *Xylophagus cinctus* (Diptera, Xylophagidae)
Y. Yerushalmi, M.P. Pener	593	The response of a homochrome grasshopper, *Oedipoda miniata*, to the dark-colour-inducing neurohormone (DCIN) of locusts
M.J. Loeb, P.A.W. Martin, R.S. Hakim, S. Goto, M. Takeda	599	Regeneration of cultured midgut cells after exposure to sublethal doses of toxin from two strains of *Bacillus thuringiensis*
J. Clark, A.B. Lange	607	Evidence of a neural loop involved in controlling spermathecal contractions in *Locusta migratoria*

O. Lung, L. Kuo, M.F. Wolfner 617 Drosophila males transfer antibacterial proteins from their accessory gland and ejaculatory duct to their mates

R. Ziegler, M.M. Ibrahim 623 Formation of lipid reserves in fat body and eggs of the yellow fever mosquito, *Aedes aegypti*

D. Hyde, P. Baldrick, S.L. Marshall, J.H. Anstee 629 Rubidium reduces potassium permeability and fluid secretion in Malpighian tubules of *Locusta migratoria*, L

C. Rossini, A. González, T. Eisner 639 Fate of an alkaloidal nuptial gift in the moth *Utetheisa ornatrix*: systemic allocation for defense of self by the receiving female

I Erratum

III Contents of *Insect Biochemistry and Molecular Biology*

V Diary

NUMBER 7

Mini-review

S.L. Chown 649 Physiological variation in insects: hierarchical levels and implications

Regular papers

M.J. Klowden 661 Sexual receptivity in *Anopheles gambiae* mosquitoes: absence of control by male accessory gland substances

C. Keating, I. Orchard 667 Dopamine induces hyperpolarization of locust salivary gland acinar cells via D_1-like receptors

K. Molnár, N. Holderith Borhegyi, G. Csikós, M. Sass 675 Distribution of serpins in the tissues of the tobacco hornworm (*Manduca sexta*) larvae. Existence of new serpins possibly encoded by a gene distinct from the serpin-1 gene

E. Hansen-Delkeskamp 689 Responsiveness of antennal taste hairs of the apterygotan insect, *Thermobia domestica* (Zygentoma); an electrophysiological investigation

G.D. Broufas, D.S. Koveos 699 Rapid cold hardening in the predatory mite *Euseius (Amblyseius) finlandicus* (Acari: Phytoseiidae)

M. Goto, Y.-P. Li, S. Kayaba, S. Outani, K. Suzuki 709 Cold hardiness in summer and winter diapause and post-diapause pupae of the cabbage armyworm, *Mamestra brassicae* L. under temperature acclimation

D.S. Richard, M. Gilbert, B. Crum, D.M. Hollinshead, S. Schelble, D. Scheswohl 715 Yolk protein endocytosis by oocytes in *Drosophila melanogaster*: immunofluorescent localization of clathrin, adaptin and the yolk protein receptor

S.A. Johnson, S.W. Nicolson 725 Pollen digestion by flower-feeding Scarabaeidae: protea beetles (Cetoniini) and monkey beetles (Hopliini)

U.E. Simon, R.F.A. Moritz, R.M. Crewe 735 The ontogenetic pattern of mandibular gland components in queenless worker bees (*Apis mellifera capensis* Esch.)

A.H. Kollien, T. Grospietsch, T. Kleffmann, I. Zerbst-Boroffka, G.A. Schaub 739 Ionic composition of the rectal contents and excreta of the reduviid bug *Triatoma infestans*

N. Mori, H.T. Alborn, P.E.A. Teal, J.H. Tumlinson 749 Enzymatic decomposition of elicitors of plant volatiles in *Heliothis virescens* and *Helicoverpa zea*

J. Godlewski, B. Kludkiewicz, K. Grzelak, B. Cymborowski 759 Expression of larval hemolymph proteins (*Lhp*) genes and protein synthesis in the fat body of greater wax moth (*Galleria mellonella*) larvae during diapause

A. Mizoguchi 767 Effects of juvenile hormone on the secretion of prothoracicotropic hormone in the last- and penultimate-instar larvae of the silkworm *Bombyx mori*

Elaine Fitches, Stephen D. Woodhouse, John P. Edwards, John A. Gatehouse 777 In vitro and in vivo binding of snowdrop (*Galanthus nivalis* agglutinin; GNA) and jackbean (*Canavalia ensiformis*; Con A) lectins within tomato moth (*Lacanobia oleracea*) larvae; mechanisms of insecticidal action

Matthias Dettloff, Brigitta Kaiser, Andreas Wiesner 789 Localization of injected apolipophorin III in vivo — new insights into the immune activation process directed by this protein

NUMBER 8
